

Exchange Thunderbird

The functionality of the Exchange mail system includes, among other things, the management of e-mails, contacts, calendars and appointments. It can be used via the web interface mail.uni-stuttgart.de. Alternatively, e-mails can be retrieved with an e-mail client. This tutorial describes the configuration of the Exchange account in the Thunderbird client.

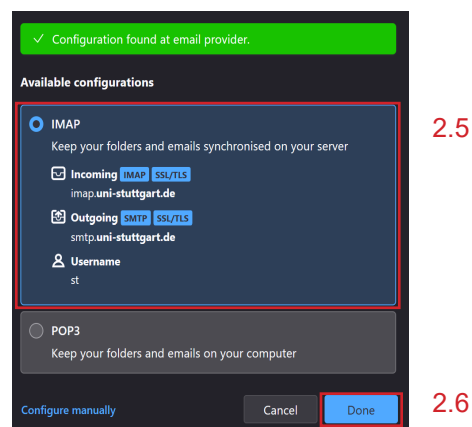

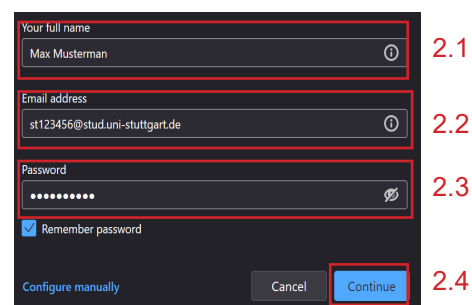

1. Create new e-mail account

- 1.1 Launch Thunderbird
- 1.2 Via the hamburger in the upper right corner menu go to the account settings
- 1.3 Click Account Actions
- 1.4 Click Add E-mail Account

2. Set up account

- 2.1 „Your full name“ can be freely chosen
- 2.2 Enter student email
- 2.3 Enter password
- 2.4 Click „Continue“ so that the settings are automatically applied
- 2.5 IMAP should be selected by default
- 2.6 Confirm by clicking „Done“, the setup is complete
