

### eduroam for Windows 10 & 11 (students)

With the wireless network eduroam you get access to the internet at the University of Stuttgart and other participating universities or institutions. The setup on Windows is done via geteduroam app, which has to be downloaded from **geteduroam.app**. Please note that for proper installation there must be no connection to eduroam beforehand. In addition, a connection to the Internet is required during the entire setup process.

1. Go to the **geteduroam.app** website and click on the Windows icon to start the download. Then run the file.

geteduroam

NORDUnet, DeiC, SURF, Uninett

1.

This screenshot shows the 'Select institution' and 'Select profile' screens of the geteduroam app. On the 'Select institution' screen, 'Universität Stuttgart' is selected in a dropdown menu. On the 'Select profile' screen, 'STUDENT' is selected from a list. Red boxes and numbers 2 through 6 indicate the steps: 2. Click 'Connect to eduroam', 3. Enter 'Universität Stuttgart', 4. Click 'Next', 5. Select 'STUDENT', and 6. Click 'Next'.

This screenshot shows the 'Login' screen of the geteduroam app. The username 'st123456@stud.uni-stuttgart.de' and a password are entered. A red box and number 8 highlight the input fields. Below the screen, a 'Next' button is shown with a red box and number 7. On the right, another 'Login' screen is shown with a red box and number 9 around the 'Connect' button, and a 'Close' button with a red box and number 10. Text below the screens reads: '7. Click „Next“', '8. Enter st-number und password', '9. Click „Connect“', and '10. Complete the setup by clicking on „Close“'.
