

eduroam on Android (Employees)

For the correct setup of eduroam on an Android device, you will need the „geteduroam“ app and a valid ac account. Additionally, please ensure that there is no existing connection to eduroam in the network settings.

1. Download

The „geteduroam“ app needs to be downloaded first from the Play Store. By tapping on „Install“, the download can be initiated

2. Registration and Completion

Now, open the app to select the organization „Universität Stuttgart“ and the „Staff“ profile. Next, enter the login credentials for your ac account. Confirm by tapping on „Connect to Network“ to complete the setup successfully.
